

## The UK's favourite car leasing website!

"Ling is such a superb 2009 Award Winner for the best use of IT and Communications. Innovative use of the internet and her first class customer service should bring her many more years of business success." – General Manager, BT Business 

To Sue Sim, Chief Constable, Northumbria Police.

25/07/2012

Dear Sue,

I am sure you are taking security at the Olympic 2012 venue of St James' Park very seriously. However, driving past, I have yet to notice a visible deterrent like the ground to air missiles in London. Also, I appreciate your budgets are squeezed.

Therefore, can I suggest you accept my offer to position my nuclear missile truck on the hard-standing outside St James' Park? While unable to be actually used to shoot down airliners (like the London missiles), I feel my missile truck would provide an excellent reminder to terrorists that they are being threatened by your excellent security arrangements.

I also have a Ferret Armoured Car which would be an excellent patrol vehicle too, as it is fitted with a .30 cal Browning machine gun in the turret (although deactivated would put terrorists off). I could remove the German markings, no problem. All for free. Plus, I am female and Chinese, so tick various equality boxes.

Please advise... Yours,

*Ling Valentine*
